

**Polyethylene Encasement for Ductile-Iron Pipe
Utility Grade – Non Printed
ASTM – D4976**

Physical properties of finished film

Film is manufactured with 65% recycled material and 35% linear low density.

Tensile Strength:	Minimum 1200 psi (approximate)
Elongation:	300 percent (approximate)
Dielectric Strength:	800 V/mil (approximate)
Thickness:	Minimum of 0.008 in. (8 mil) +/- 10%
Color:	Black (other colors are available upon request but are subject to factory minimum such as Purple, Green and Brown)

V1117
